

Fixed Wireless Phone 21G

GSM

sms

Overview

The VISIONTEK 21G GSM Desk Phone allows users to get connected to voice communications using the mobile phone network. These phones combine the simplicity of a standard telephone with advanced features.

This unit is a simple GSM Desk Phone. It takes a SIM card and allows you to make and receive calls - Features include Hands free, 2-way SMS and an LCD display.

Almost all private as well as public sector telecom operators, with an intension of expanding the network much faster and smoother way, are willing to roll out FWP on their GSM wireless network and the FWP can be installed on any network and are hassle free.
