

On a Fast Track to Enable Faster & Better Transactions

Linkwell Telesystems (P) Ltd., with its DSIR recognized R&D, is a product development Company that manufactures telecom customer premises equipment in PSTN; GSM/CDMA/IP & Wi-Fi technologies with brand name VISIONTEK.

- The product range includes Point of sale terminals in various technology variants PSTN/ GSM/ CDMA/IP & Wi-fi technologies
- Wired and Wireless Public Call Office (PCO) Billing Machines
- Modems, Payphones, GSM Fixed

Cellular Terminals

- IP products like Serial to Ethernet; serial to serial & Wireless to IP data converters
- software products like Bulk / Multi user SMS application & Terminal Management Software.

All the products are manufactured at their state-of-the-art sprawling 60,000 sft manufacturing facility. Over 1.5 million products are deployed across the globe (50 countries). These services reach our 1.5 million customers through a 600+ strong dealer/distributor network. The Company is now implementing a

new architecture and Engineering Change Management procedure built into MatrixOne's PDM/PLM Solution. Visiontek has a road map with better visibility to Product development lifecycle to all its stake holders rather than just the engineering and product planning functions. VISIONTEK is interested in strategic alliances with Telco's, ISPs, Utility Companies, Banks, Financial Institutions, Insurance Companies, Established Distributors, System Integrators, Value-added Service Providers, NGOs and OEM/ODMs in global markets.
